

# **Natural Gas Survey**

**Elizabethtown Gas is investigating the feasibility of providing  
natural gas service  
to Green Township residents and businesses.**

**A survey enquiring whether property owners are interested to connect their  
home or business to natural gas will be arriving by mail around March 15, 2017.**

**The viability of natural gas will partially depend on the response of this survey.**

**The Township Committee encourages ALL residents to complete this survey and  
return it to Elizabethtown Gas.**
